1.1 Design Principles

LIVING FIRST

Independence

Provide a landscape that is accessible, well-connected and legible, and supports walking

Social Interaction

Incorporate areas to facilitate moments where residents can connect with each other to build a sense of community, social relations, and sense of identity

VILLAGE IN THE GARDEN

Connection with Nature

Provide visual and physical connections to greening, including sensory gardens, to support mental health

Participatory Landscape

Provide opportunities for interaction and engagement with and within the landscape (walking, exercising, gardening)

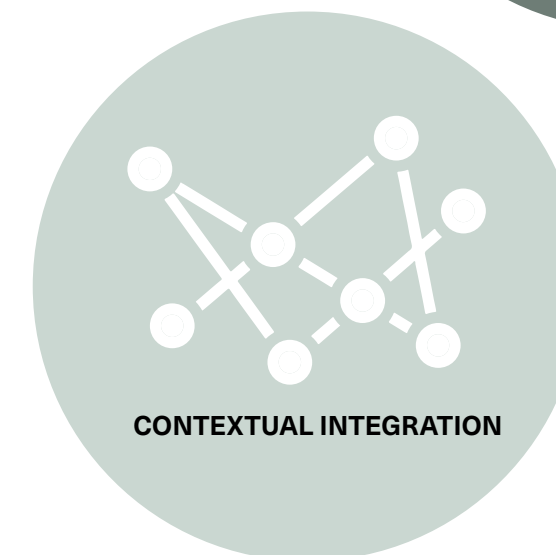

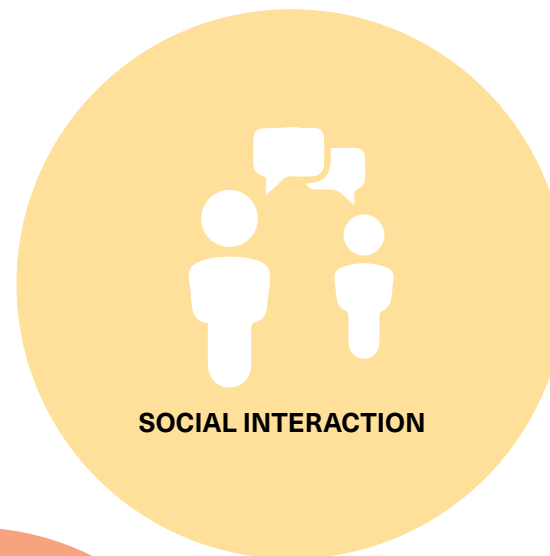

FUTURE NOSTALGIA

Environmental Comfort

Provide a calming environment that minimises negative sensory impacts and provides thermal comfort

Contextual Integration

Contribute to the broader place and strengthen community connections, both physical connections and social connections.
