Heather Pinder,
RE: 212 Churchill Road Prospect SA

I would suggest the below for your 21-unit development's waste inc Laundry.
pickup times to be between 10am to 12pm or any other day time period after 10am and before 4pm.
The design looks suitable for a truck to be able to service this site safely.

Assessment

General – 3.08m³ (140L x 22 units)
Recycling 2.65m³ (240L x 22 units/2 weekly)
Organics – 2.5m³ (240L x 21 /4weekly)

Recommendation

1100L General 1 bin 3x weekly allowance .15m³ per lot weekly
1100L Cardboard 1 bin 3x weekly allowance .15m³ per lot weekly
240L Organics 2 bins 5x weekly allowance .1m³ per lot weekly
